PROPOSED AGENDA FOR EXAMINER INTERVIEW

In response to the request by Examiner Bates, the following is a proposed agenda
for the Examiner Interview tentatively scheduled for Thursday, August 11, 2005 from
1:00 P.M. to about 2:00 P.M.

The proposed agenda is as follows:

1. Introductions
2. Applicant would suggest that the initial discussion center on why
the direct broadcast satellite (DBS) signals of Wugofski (U.S. Patent No. 6507951) are
not technically and by definition "satellite audio radio" signals (see, e.g., 47 CFR §
25.202(a)(6) and (a)(7) and *The Satellite Telecommunications Applications Handbook*,
2nd Edition (2004), chapters 6 and 7), and therefore a prima facie showing of
obviousness has not been met because neither Robbins (U.S. Patent No. 6317882) nor
Wugofski, either alone or in combination, disclose or suggest the claimed feature of
"satellite audio radio."

Applicant estimates that the discussion time for Agenda Point 2 to be about 20-35

minutes, or less.

3. If necessary, applicant suggests a discussion of any further amendments to the claims to place the claims in a condition for allowance and cosmetic/clean up amendment to the pending claims.

Applicant estimates a discussion time of 5-15 minutes.

4. Applicant also suggests discussing an amendment to the title to more appropriately reflect the claimed invention.

Applicant estimates a discussion time of 5-10 minutes.

5. Adjournment.

For purposes of the meeting, applicant and his undersigned attorney will bring the reference "*The Satellite Telecommunications Applications Handbook*, 2nd Edition (2004)" and a copy of the relevant portions of 47 Code of Federal Regulations (CFR), namely 47 CFR § 25.202(a)(6) and (a)(7). These references will be used to illustrate the important technical and definitional distinctions between "satellite audio radio" and "direct broadcast satellite (DBS)." If the Examiner has any question concerning the above proposed agenda, please contact Matthew I. Cohen at the number below.

Respectfully Submitted,
